

**The Rocky Mountain Vendor Group
Invites you to join us as part of the
Leeds Precision Instruments Seminar Series
and
The Rocky Mountain Neuroscience Group**

**Thursday, May 29, 2008
Education 2 South Building
2nd Floor**

Join us for a day of lectures, Q&A and equipment presentations. You do not need to register for the Neuroscience Meeting to attend the Leeds Seminar Series or the Rocky Mountain Vendor Group Displays.

Topics will include Digital Cameras, Deconvolution, Laser Confocal Microscopy, Spinning Disk Confocal and Pathology Imaging.

Roundtable discussion on:

Solving Research Problems. What is the correct equipment for my application? A round table discussion with microscopy experts on how to choose the right imaging systems for your application. This is an opportunity for attendees to get answers to complex imaging projects and how to approach them.

Participating Vendors include:

Perkin Elmer, Millipore, Bio-Rad, Thermo-Fisher Scientific, Applied Biosystems, EMD Chemicals, BD Biosciences, Spectra Physics, Hamamatsu, Olympus and Leeds Precision Instruments.
