general information

Aspen, Colorado

Set in the majestic Colorado Rockies, Aspen is located 200 miles west of Denver at an elevation of 7,900 feet, in the midst of the White River National Forest, near some of the most spectacular scenery in Colorado. It may be reached from Denver by automobile via Route 285, 24, and 82 which is a breathtaking ride over Independence Pass (approximately 3.5 hours), or via Glenwood Springs on Interstate 70 and Route 82 (approximately 4 hours). Many find it convenient to arrange for a rental car in Denver; however, public bus service between Denver and Aspen is available as well as regularly scheduled flights from Denver International Airport. Colorado weather features warm days and cool evenings, and occasional late afternoon showers. Bring clothing suitable for temperature changes between 45 and 85 degrees. Casual wear is appropriate and encouraged. Sunglasses and sunblock are advised.

Aspen Activities

Aspen is one of the nation's foremost cultural centers. The internationally renowned Aspen Music Festival attracts some of the best conductors and musicians in the world, and Dance Aspen offers performances by top dance troupes from around the country. The festival presents over 130 events during its nine week season, including orchestral, chamber, opera, choral, jazz performances and special events for children. For a free calendar of events write to Music Associates of Aspen, 2 Music School Road, Aspen, CO 81611. Phone: (970) 925-3254 FAX: (970) 920-1643 e-mail: festival@aspenmusic.org. Or visit www.aspenmusicfestival.com. Downtown Aspen houses several well-known galleries and shops.

Aspen provides unequalled opportunities for hiking, fishing, biking, horseback riding, golf, tennis, river rafting, hot air balloon rides, and more. Information and a pre-registration packet for recreational activities is available online at www.uchsc.edu/cme or you may call Blazing Adventures directly at 800-282-7238 or (970) 923-4544 and ask for the Group Services department. Their experienced staff can provide information regarding the area as well as make reservations for activities. For more information on Aspen activities visit: www.aspenchamber.org

Cancellation: A refund, minus a \$50 administrative charge, will be granted if cancellation is requested by July 17, 2006. No refunds will be granted after this date or for non-attendance.

The conference committee reserves the right to cancel this conference due to an unforeseen circumstance and will be responsible to refund registration fees only.

conference description

This thirty-third annual course is designed to provide the practitioner with state-of-the-art information regarding the pathogenesis and treatment of a variety of disease states. Internationally recognized guest lecturers and members of our own faculty will give sharply focused clinically oriented talks on a range of topics. Upon completion of the course, participants should be able to:

- ◆ Summarize current concepts regarding the importance of residual renal function in dialysis patients, targets for dialysis adequacy, the role of daily dialysis modalities, and interrelationships between dialysis modality and transplant outcomes.
- ◆ Discuss the roles of new therapeutic agents and targets for sodium handling, hypertension, and water handling.
- ◆ Evaluate patients with genetic disorders of tubular transport.
- ◆ Identify key features relating to the pathogenesis, diagnosis, and management of patients with ischemic nephropathy, membranous glomerulonephritis, and ADPKD
- ◆ Explain the mechanisms of immune-mediated glomerular injury.
- ◆ Describe the results of key literature articles of the past year in the areas of chronic kidney disease and dialysis; glomerulonephritis; transplantation; and acid-base, fluid, and electrolyte disorders.

Each talk will be followed by a question and answer period. In addition, faculty members will be available for informal discussion and consultation during workshops, breakfasts, and intermissions.
