

Accreditation

The University of Colorado School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The University of Colorado School of Medicine designates this educational activity for a maximum of 11 category I credits toward the AMA Physician's Recognition Award. Each physician should claim only those credits that he/she actually spent in the activity.

AAPA accepts Category I credit from AOACCME, Prescribed credit for AAFP, and AMA category I CME credit for the PRA from organizations accredited by ACCME.

The University of Colorado School of Pharmacy is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education. This program has been accredited for up to 11 contact hours (1.1 CEUs) and assigned the ACPE number: 008-999-05-041-L01. To receive continuing education credit, participants must submit a completed statement of attendance. CE statements of credit will be mailed within 6 weeks.

American Osteopathic Association credits have been applied for.

Application for CME credit has been filed with the American Academy of Family Physicians. Determination of credit is pending.

Course Overview

This symposium focuses on the latest diagnosis and treatment in infectious diseases and is designed for physicians, nurse practitioners, physician assistants, clinical pharmacists and allied health professionals.

Program Features

The sessions include didactic presentations with audience participation, small group lectures with case presentations, and question and answer periods.

After attending this program, participants should be able to:

1. Comprehend the latest approach to the management of sinusitis and serious respiratory infections.
2. Recognize and manage selected important infectious diseases in children.
3. Review the latest developments in the diagnosis and treatment of Hepatitis C.
4. Identify important roles of the Microbiology Lab in clinical practice.
5. Discuss new antibiotics and their role in clinical practice.
6. Review and discuss the current status of zoonotic infections in Colorado.
7. Obtain practical knowledge on the appropriate use of immunizations.
8. Review and apply a practical approach to the management of STDs.
9. Summarize several key issues in infection control.
10. Acquire new knowledge on the approach to common skin infections.
11. Recognize the approach to treat and prevent illness in the traveler.
12. Recognize the common causes of food and water-borne infections.
13. Identify the recent advances in HIV treatment and their impact on clinical practice.
