University Of Colorado Denver Cytopathology Laboratory

The Cytopathology Laboratory at the University Of Colorado Denver is a full-service laboratory accredited by both the College of American

Pathologists (CAP) and the Joint Commission (JC). We provide routine screening and diagnostic testing of gynecological, non-gynecological and fine needle aspiration specimens.

“It is our mission to provide our clients the highest possible quality service using continuous quality control and internal personnel training procedures.”

Further more, we continually strive to expand and customize our services to the individual needs of our clients. Please allow us the opportunity to serve you!

Gynecologic Cytopathology Services

- **Pap Test** - ThinPrep, SurePath and Conventional
- **Human Papilloma Virus (HPV)** - Testing for ASC-US triage or primary screening of women under 30
- **ProEx C Testing** - An FDA approved Class 1 IHC (IVD) that can be used to confirm the diagnosis of HSIL and may detect underlying CIN2/3 in patients with low grade cytological abnormalities.

Non-GYN Cytopathology Services

- **Fine Needle Aspiration** - Performed by pathologists, or by pathologists assisting with clinicians, using CT scan or Ultrasound guided technology
 - Immediate Pathologist evaluation and diagnosis is available.
- **Pulmonary**
 - Sputum
 - Bronchial brushing / washing
 - Bronchoalveolar lavage with evaluation for malignancy or for opportunistic infections using AFB and GMS staining
- **Urologic**
 - Voided or catheterized Urine
 - Bladder washing
 - Ureteral or renal pelvis washing / brushing
 - FISH analysis for DNA ploidy
- **Body Cavity Fluids**
 - Pleural
 - Pericardial
 - Peritoneal
- **Cerebrospinal Fluid**
- **Gastrointestinal**
 - Oral, esophageal, gastric brushing / washing
 - Biliary system brushing
 - Endoscopic ultrasound guided fine needle aspiration

Specimen Submission

Specimens may be sent via FedEx or our available courier services.

Result Reports

It is the goal of our laboratory to report results of all tests within **3 business days** of specimen receipt. Results can be sent by either Fax, Email or Tele-Pathology (live consultant).
