

ARE  
YOU  
SURE  
IT'S  
THE  
FLU?

It's **BETTER TO KNOW**  
IF YOU'VE BEEN  
EXPOSED TO HIV

If **YOU** have any of these symptoms:  
**fever, night sweats, sore throat,**  
**swollen glands** and/or **red or**  
**spotty rash** within 4 weeks of  
having high risk sex, you may be  
infected with HIV. Please call the  
**UCHSC Project ACT NOW.**

**CALL US @ 303.328.7863**

We use tests  
that detect  
HIV early.

PROJECT ACT NOW  
COMIRB #03-812  
Principle Investigator   
Elizabeth Connick, MD
